

AMENDMENT TO THE CLAIMS

Listing of Claims:

Claim 1 (Currently Amended): A mobile telephone, comprising:

a display which displays information including telephone numbers or characters;

a first ~~address-data~~ bus for connecting to control means and storage means that are provided as principal integrated circuits; and

a second ~~address-data~~ bus for connecting said control means and said display means ~~independently of said first address-data bus~~;

wherein said first bus and said second bus are independently connected to said control means, and

wherein said control means controls said first address data bus and said second ~~address-data~~ bus independently.

Claim 2 (Previously Presented): A mobile telephone as claimed in claim 1, further comprising communication means for transmitting and receiving signals via a radio line,

wherein said control means is controlled to prohibit access to said second address data bus while said communication means is receiving signals.

Claim 3 (Currently Amended): A mobile telephone as claimed in claim 1, wherein said second ~~address-data~~ bus is driven by lower voltage than said first address data bus.

Claim 4 (Cancelled).

Claim 5 (Previously Presented): A mobile telephone as claimed in claim 1, wherein said display means is arranged near an antenna of the mobile telephone.

Claim 6 (New): A mobile telephone as claimed in claim 1, wherein the first bus is not connected to said display means.

Claim 7 (New): A mobile telephone, comprising:

a display which displays information including telephone numbers or characters;

a first bus for connecting to control means and storage means that are provided as principal integrated circuits;

a second bus for connecting said control means and said display means;

wherein said first bus and said second bus are independently connected to said control means,

wherein the first bus is not connected to said display means.

Claim 8 (New): A mobile telephone as claimed in claim 7, wherein said control means controls said first bus and said second bus independently.

Claim 9 (New): A mobile telephone as claimed in claim 7, further comprising communication means for transmitting and receiving signals via a radio line,

wherein said control means is controlled to prohibit access to said second bus while said communication means is receiving signals.

Claim 10 (New): A mobile telephone as claimed in claim 7, wherein said second bus is driven by lower voltage than said first bus.

Claim 11 (New): A mobile telephone as claimed in claim 7, wherein said display means is arranged near an antenna of the mobile telephone.
